

DESIGNER BRIEF

When Olga Timlin decided to move premises in Tuam, she wanted her boutique to be that little bit extra special for her clients. She had built up a good client base in her old premises and wanted to be sure of their continued support in her new boutique. She enlisted the services of Grainne of Architectural Spaces. Her brief was to design the spatial plan and a detailed layout of the shop.

Working closely with Olga, Grainne designed all the display joinery units and counter, she suggested a glass top for the counter adding the glitz to the shop. Carry Bradshaw would not look out of place shopping here. She also worked with Olga on the selection of the occasional furniture. The furniture in the boutique has that classical french look - giving the shop a feeling of glamour and luxury. Grainne and Olga wanted to continue the over all look with the fabrics and wallpaper. Supplied and fitted by

Architectural Spaces they went with deep colours with a textured finish.

Hidden Closet is inviting and luxurious with that glamour that everybody should feel when choosing that special outfit. Hidden Closet stocks all the top brands and you will be forgiven for thinking it is very expensive but actually all the clothes are very affordable. Shopping at Hidden Closet is an experience not to be missed.
